#### **Technical data**

| Basic data                          |   |
|-------------------------------------|---|
| Series                              | 3C  |
| Operating principle                 | Scanning principle with background suppression          |
|                                     |   |
| Optical data                        |   |
| Black-white error                   | < 10% up to 250 mm                                      |
| Operating range                     | Guaranteed operating range                              |
| Operating range, white 90%          | 0.005 0.6 m   |
| Operating range, gray 18%           | 0.01 0.5 m  |
| Operating range, black 6%           | 0.015 0.4 m   |
| Operating range limit               | Typical operating range                                 |
| Operating range limit               | 0.005 0.6 m   |
| Adjustment range                    | 15 600 mm   |
| Beam profile                        | Divergent   |
| Light source                        | LED, Infrared   |
| LED light wavelength                | 880 nm  |
| Transmitted-signal shape            | Pulsed  |
| LED protection class                | Exempt group (in acc. with EN 62471)                    |
| Type of light-spot geometry         | Round   |
| Focus                               | Fixed   |
| Focal distance                      | 200 mm  |
|                                     |   |
| Electrical data                     |   |
| Protective circuit                  | Polarity reversal protection<br>Short circuit protected |
| Performance data                    |   |
| Supply voltage                      | 10 30 V, DC, Incl. residual ripple                      |
| Residual ripple                     | 0 15 %, From U <sub>B</sub>                             |
| Open-circuit current                | 0 15 mA   |
| Outputs                             |   |
| Number of digital switching outputs | 2 Piece(s)  |
| Switching outputs                   |   |
| Voltage type                        | DC  |
| Switching current, max.             | 100 mA  |
| Switching voltage                   | Low: ≤2V  |
|                                     | High: ≥(U <sub>B</sub> -2V)                             |
| Switching output 1                  |   |
| Assignment                          | Connection 1, pin 4                                     |
| Switching element                   | Transistor, PNP   |
| Switching principle                 | Light switching   |
| Switching output 2                  |   |
| Assignment                          | Connection 1, pin 2                                     |
| Switching element                   | Transistor, PNP   |
| Switching principle                 | Dark switching  |
|                                     |   |
| Timing                              |   |
| Switching frequency                 | 1,000 Hz  |
| Response time                       | 0.5 ms  |

## Leuze electronic

#### Part no.: 50135361 – HT3CI/4P-M8 – Diffuse sensor with background

#### Notes

Observe intended use!

- This product is not a safety sensor and is not intended as personnel protection.
- The product may only be put into operation by competent persons.
- Only use the product in accordance with its intended use.

#### For UL applications:

• For UL applications, use is only permitted in Class 2 circuits in accordance with the NEC (National Electric Code).

 These proximity switches shall be used with UL Listed Cable assemblies rated 30V, 0.5A min, in the field installation, or equivalent (categories: CYJV/CYJV7 or PVVA/PVVA7)

- Light source: Average life expectancy 100,000 h at an ambient temperature of 25 °C
- Response time: For short decay times, an ohmic load of approx. 5 kOhm is recommended
- Sum of the output currents for both outputs, 50 mA for ambient temperatures > 40 °C
