

PRKL 8

Laser retro-reflective photoelectric sensor

en 10-2014/11 50115718-03

0 ... 22m
0 ... 14m

- Laser, red light, laser class 1 and 2
- The autocollimation principle used ensures that the device functions reliably over the entire range (0 ... max.)
- A²LS - Active Ambient Light Suppression
- Adjustable focus
- M12 turning connector or cable connection

Dimensioned drawing

- A Transmitter and receiver
- B Optical axis
- C Operational control
- D Yellow LED
- E Turning connector, 90° rot. angle

Electrical connection

PRKL 8/24.91
PRKL 8/24.91-S12
PRKL 8/24.99-S12

PRKL 8/44.91-S12

We reserve the right to make changes • DS_PRKL8_en_50115718_03.fm

Accessories:

(available separately)

- M12 connectors (KD ...)
- Ready-made cables (K-D ...)
- Mounting systems
- Reflectors
- Reflective tapes
- Control guard

Specifications

$U_B/0V$ or not connected
 < 0.5 ms

- 1) Typ. operating range limit: max. attainable range without performance reserve, focus = 16m
- 2) Operating range: recommended range with performance reserve, focus = 16m
- 3) For UL applications: for use in class 2 circuits according to NEC only
- 4) 2=polarity reversal protection, 3=short circuit protection for all outputs
- 5) Rating voltage 250VAC
- 6) In end position of the turning connector (turning connector engaged)
- 7) IP 69K test acc. to DIN 40050 part 9 simulated, high pressure cleaning conditions without the use of additives, acids and bases are not part of the test
- 8) These proximity switches shall be used with UL Listed Cable assemblies rated 30V, 0.5A min, in the field installation, or equivalent (categories: CYJV/CYJV7 or PVVA/PVVA7)

Operate in accordance with intended use!

- This product is not a safety sensor and is not intended as personnel protection.
- The product may only be put into operation by competent persons.
- Only use the product in accordance with the intended use.

Order guide

Laser class 2

Designation	Part no.
With M12 connector	PRKL 8/24.91-S12 50036364
With M12 connector	PRKL 8/44.91-S12 50127932
With 2m cable	PRKL 8/24.91 50036365

Laser class 1

With M12 connector	PRKL 8/24.99-S12 50115689
--------------------	---------------------------

Tables

Laser class 2:

Reflectors	Operating range
1 TK(S) 100x100	0 ... 19.0m
2 MTK(S) 50x50	0 ... 17.0m
3 TK(S) 30x50	0 ... 7.0m
4 TK(S) 20x40	0 ... 7.0m
5 REF 6-S- 20x40	0 ... 8.0m
6 Tape 6 50x50	0 ... 8.0m

6 Tape 6 50x50	0 ... 5.0m

1	0	12	14
2	0	10	12
3	0	4	5
4	0	4	5
5	0	5	6
6	0	5	6

- Operating range [m] *
- Typ. operating range limit [m] *

* for focus adjusted to 16m (right limit stop)

TK ... = adhesive
 TKS ... = screw type
 Tape 2 = adhesive

Diagrams

- A Focus adjusted to 0.144m (left limit stop)
- B Focus adjusted to 2m
- C Focus adjusted to 16m (right limit stop)

Remarks

- Use reflectors with small tripel structure – MTK(S), REF 6-S... or tape 6

Laser safety notices - PRKL 8/... .99...**ATTENTION, LASER RADIATION – LASER CLASS 1**

The device satisfies the requirements of IEC 60825-1:2007 (EN 60825-1:2007) safety regulations for a product in **laser class 1** as well as the U.S. 21 CFR 1040.10 regulations with deviations corresponding to "Laser Notice No. 50" from June 24th, 2007.

- ↳ Adhere to the applicable legal and local regulations regarding protection from laser beams.
- ↳ The device must not be tampered with and must not be changed in any way.

There are no user-serviceable parts inside the device.

Repairs must only be performed by Leuze electronic GmbH + Co. KG.

Laser safety notices - PRKL 8/... .91...

ATTENTION, LASER RADIATION – LASER CLASS 2

Never look directly into the beam!

The device satisfies the requirements of IEC 60825-1:2007 (EN 60825-1:2007) safety regulations for a product in **laser class 2** as well as the U.S. 21 CFR 1040.10 regulations with deviations corresponding to "Laser Notice No. 50" from June 24th, 2007.

- ↳ Never look directly into the laser beam or in the direction of reflecting laser beams!
If you look into the beam path over a longer time period, there is a risk of injury to the retina.
- ↳ Do not point the laser beam of the device at persons!
- ↳ Interrupt the laser beam using a non-transparent, non-reflective object if the laser beam is accidentally directed towards a person.
- ↳ When mounting and aligning the device, avoid reflections of the laser beam off reflective surfaces!
- ↳ **CAUTION!** Use of controls or adjustments or performance of procedures other than specified herein may result in hazardous light exposure.
- ↳ Adhere to the applicable legal and local regulations regarding protection from laser beams.
- ↳ The device must not be tampered with and must not be changed in any way.
There are no user-serviceable parts inside the device.
Repairs must only be performed by Leuze electronic GmbH + Co. KG.

NOTICE

Affix laser information and warning signs!

Laser information and warning signs are affixed to the device(see ①). In addition, self-adhesive laser information and warning signs (stick-on labels) are supplied in several languages (see ②).

- ↳ Affix the laser information sheet with the language appropriate for the place of use to the device.
When using the device in the US, use the stick-on label with the "Complies with 21 CFR 1040.10" notice.
- ↳ Affix the laser information and warning signs near the device if no signs are attached to the device (e.g. because the device is too small) or if the attached laser information and warning signs are concealed due to the installation position.
Affix the laser information and warning signs so that they are legible without exposing the reader to the laser radiation of the device or other optical radiation.
